ulrich medical USA® Announces North American Corporate Expansion

Twenty Percent Growth Year-to-Date Caps Four Years of Exceptional U.S. Performance

ST. LOUIS, MO (August 24, 2015) – ulrich medical USA Inc., today announced plans to significantly increase its U.S. workforce in order to accommodate for the increasing demands of its dynamic spine implant business. Fueled by four consecutive years of profitable, double-digit growth and twenty percent year-to-date growth, the company is investing in its future and expanding across multiple functional areas within North America.

“I am very proud of the thriving spine business we have created over the past five years,” said Hans Stover, President and Chief Executive Officer, ulrich medical USA. “During this time period, we have tripled the size of our U.S. spine business while at the same time delivering significant value to our shareholders. This success has created many new career opportunities within our organization and we are anxious to find new talent to join our team.”

The company is currently accepting résumés for multiple field-based commercial positions in the following areas of specialty: executive/general management, sales management and spine specialists. In addition, there are numerous engineering, marketing and department administration positions that have been created and will be based in the company’s corporate office in Chesterfield, MO. Résumés for all positions are being accepted at careers@ulrichmedicalusa.com.

In a forward-looking statement, Stover said, “We have an unparalleled global business history that spans over a century as a privately held, diversified medical technology company and we are currently investigating similar diversification strategies for the U.S. market in order to help grow and strengthen our enterprise for generations to come.”
