

G21 V-Steady

High Viscosity Cement System

V-Steady Advantages

- 20cc Closed Cement Mixing System
- Long working time ~9 minutes
- 45 second mix time
- Waiting period after mix ~3-4 minutes
- Gun Cartridge holds up to 15cc
- Gear design for controlled cement injection
- Gun provides 1cc of cement injection per full turn
- Gun tubing adds versatility for surgeon use
- Cement consistency is sensitive to room temperature
- Check cement viscosity for desired consistency prior to injection
